RE: Special Case Determination Memo

Date: 11/13/2024

The Agency has determined that it is in the best interest of the City to utilize the method of source selection, for which a special case determination(s) is/are required because; Pursuant to PPB Rule § 3-01 (d) (2) (Special Case Circumstances), the ACCO has determined that it is not practicable or advantageous to the City to use Competitive Sealed Bidding because: Responses will require specific expertise in providing software development and optimization services and therefore will require judgement and a balancing of price, quality and other factors to ensure that the selected response meets the overall objectives of the program development. Utilizing the CSP method is most advantageous to procure the most highly experienced consultant.
